Re: Vistry Homes Thames Valley – Highway works A30. Basingstoke. Hampshire

Vistry Homes Thames Valley will be shortly be starting works on their residential development on land at Hounsome Fields, Basingstoke, Hampshire following approval of the construction of 750 properties. The development which has been approved by Basingstoke and Deane Borough Council under Planning application number 15/04503/OUT and forms an important link to delivering requirements identified under the Basingstoke and Deane Local Plan Policy SS3.12.

To facilitate this development a new roundabout is required to be constructed as well as the realignment of the A30 to serve the development, ahead of the roundabout works starting, tree felling works are required along the relevant stretch of the A30.

The tree clearance work will be started on Monday 14th September and will take approximately six weeks to complete. Unfortunately, there will be some disruption to traffic in the area as a full time traffic management will be required in both directions on the carriageway to ensure the safety of the workforce carrying out the felling as well as all road users.

Following this the construction of the roundabout will take place with an estimated construction period of 45 weeks. Further information can be found on www.S278.biz

Please be aware that Vistry Homes will ensure all our contractors work safely in accordance with Government Social Distancing requirements due to the COVID 19 pandemic.

Vistry Homes have agreed to carry out significant tree replanting with Hampshire County Council to mitigate the loss of the trees necessary for this essential works, further details of which will be confirmed in due course.

We apologise for the inevitable inconvenience these works will cause and thank you in advance for your patience.

If you need to contact us in an emergency, please email Darren.mcarthur@bovishomes.co.uk For any other enquiry relating to these works, please email customercare.southerncounties@bovishomes.co.uk.

Yours faithfully

Darren McArthur
Regional Technical Manager
